PARTRIDGE SHOOTING IN SPAIN

LA POSADILLA

La Posadilla

Enjoy exclusive game shooting on one of
Spain's hidden sporting gems

Welcome to La Posadilla

Origins

Until only a few years ago this estate was totally private!
Run only for the family and their VIP guests, they have now opened up the estate to offer a small number of days.

With a wide range of drives across the estate to cater for all abilities; La Posadilla, backed by the experience of the new management team is certainly a shoot to add to your sporting bucket list.

Heading into our third season we have made a number of changes that have enhanced the sport and broadened the estates potential ...all without losing it's intimate and rustic charm.

We only offer the best! not just when it comes to the sport but in terms of hospitality and accommodation. All of our packages are as much about Spanish culture and food as it is shooting. With each trip run like a family holiday...just with meticulous organisation.

LA POSADILLA

The Estate

La Posadilla offers the best possible habitat for red-legged partridge. Combining oak trees, arable land, olive plantations and vineyards together with some great topography to present some very challenging high birds.

The permanent care of the habitat is demonstrated by the number of broods of wild partridges that we see each year.

Our commitment to the estate is also our commitment to conservation, and the focus not only to have great sport but to allow our guests to see the best of what Spain has to offer and the amazing wildlife we have.

The estates management plan also make it possible for a few breeding pairs of Iberian Lynx to be seen on the estate. Something of a bonus if teams get to see them.

The shooting season goes from mid September trough to March.

The Shooting

Driven Partridges

Our basic package is based on 350 partridges per shooting day for parties of 5 to 10 guns.

With 5 drives per day and full hospitality, every group will see a wide range of drives throughout the estate and will be presented with lots of great shooting, with plenty of birds.

We recommend the use of double guns (though single guns are great too), and we will provide secretarios and loaders.

Walked- up Shooting

We require a minimum of 4 guns per walked-up day.

Duck Shooting

We have a lake and 2 artificial ponds.
